SUMMARY

Motivated Computer Science student skilled in C++/Java with a strong foundation in Data Structures & Algorithms and problem solving. Possesses basic knowledge of cybersecurity concepts including phishing awareness and network scanning fundamentals. Passionate about building real-world projects, participating in hackathons, and continuously improving technical skills.

EDUCATION

Bachelor of Technology, Computer Science

KIET Group of Institutions, Ghaziabad **CGPA:** 8.12/10

2024-2028

Senior Secondary Intermediate Science

Delhi Public School, Ghaziabad Percentage 81 || Year 2023

Secondary High School

Rajdhani Public sr.sec School, Delhi Percentage 83 || Year 2021

PROJECTS

• CareMate

September 2025

A health assistance project built to simplify daily care management through smart reminders and basic automation features. It focuses on improving user convenience by organizing essential tasks related to health and routine activities. The project emphasizes user-friendly design and practical problem solving. It showcases skills in logical thinking, planning, and application development concepts.

• Ai Fitness Agent

November 2025

A fitness-oriented project designed to encourage healthy lifestyles by tracking activities and providing simple workout guidance. It helps users stay consistent with fitness goals through structured monitoring and habit-based features. The project reflects interest in technology-driven health solutions and demonstrates basic development and system design understanding.

CERTIFICATES

- AWS Cloud Foundations
 - Java Full Course Certification
 - Problem Solving & Logical Thinking
 - Credly Badge – Cloud/AWS Fundamentals
 - Red Hat Linux Fundamentals
-

SKILLS

- Programming Languages: C++, Java
 - Data Structures & Algorithms (DSA)
 - Problem Solving & Logical Thinking
 - Cybersecurity Basics (Phishing Awareness, Network Scanning Fundamentals)
 - Git & GitHub
 - Basic App Development Concepts
 - Analytical Thinking & Continuous Learning
-
